ENDLESS POSSIBILITIES

Modello by Millboard is a groundbreaking innovation that has reimagined what decking can be. With its two distinct patterned styles - Linear and Contour - and an extensive palette of colours, this product allows for endless design possibilities. By simply offsetting the same board, you can create a stunning array of over 50 unique patterns, each with its own distinctive character.

Whether you're inspired by the sleek, modern aesthetic of our Linear board, echoing ancient Greek key motifs, or captivated by the flowing elegance of water reflected in the Contour style, Modello is the perfect choice. As an industry first, it offers unparalleled customisation, allowing you to design spaces as unique as your imagination. In order to mimic the hand-crafted nature of textiles and patterns on which Modello is based, a minimal amount of geometric variance has been purposefully manufactured into the boards to give it an enhanced authenticity.

"Modello embodies our passion for pushing boundaries and creating products that inspire. The vision for Modello was to unlock a new realm of creativity, allowing homeowners and designers to transform outdoor spaces into artistic masterpieces. It's not just decking - it's a platform for self-expression."

CONTOUR

Drawing from the graceful arcs of nature, the Contour pattern introduces a soft and organic flow to decking design.

Inspiring movement and fluidity, the Contour pattern excels in zonal areas, feature inlays, or as a striking centrepiece for a full deck. Its distinctive curvature adds a sense of depth and artistry, making your outdoor environment truly one of a kind.
